

# Your Smart Home Manager

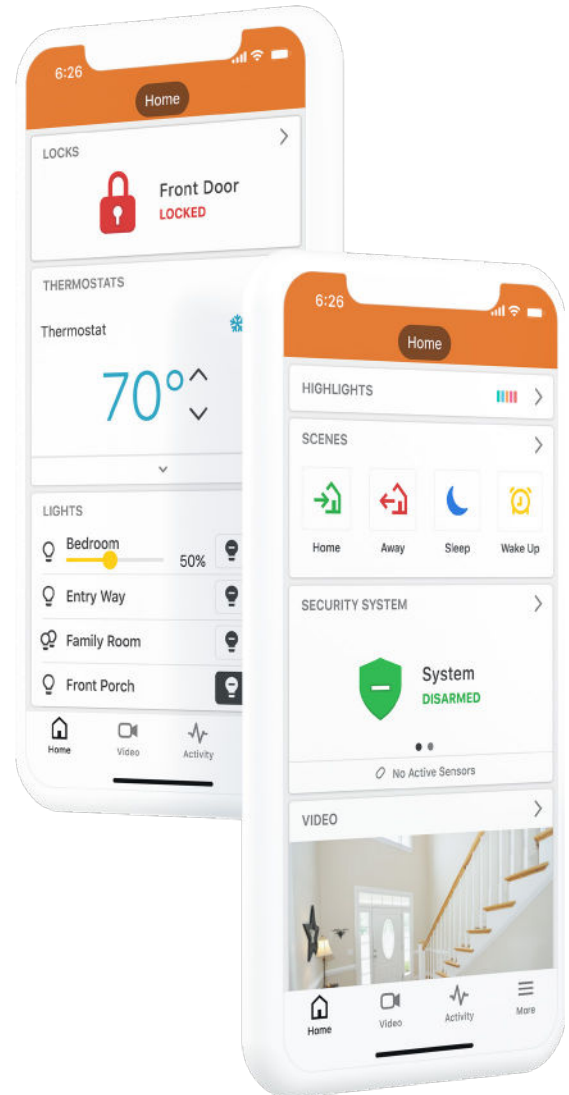

Manage everything from lights and locks to thermostats and cameras—in just a few taps—with the Alarm.com app. Enjoy customization and peace of mind knowing everything in your home is connected on one easy-to-use platform.

- + Catch up on the day's activity at a glance with a Highlights reel of the most important video clips.
- + Rules and Schedules put your system on autopilot for a truly smarter home.
- + Unexpected Activity Alerts notify you if unusual activity takes place.
- + Scenes adjust multiple devices at the same time with one touch.
- + Alarm.com Places reminds you if you forgot to lock up or arm the system.
- + Get quick, touch-free access to your security system and smart devices with Siri Shortcuts.

## Our Technology Adjusts to Your Lifestyle

Keep your family and home safe with Alarm.com's award-winning Smart Arming. This helpful feature adapts to your routines and remembers to deactivate your security system at a pre-set time or if motion is detected by your sensors.

Contact a local service provider or find one at [www.alarm.com](http://www.alarm.com).
